QUAIL FARMS

Get ready to

crack a new egg!

Tiny but mighty!

Quail eggs are a healthy and delicious alternative to chicken eggs. With demand on the rise, these tiny eggs have big potential to become a popular staple in your store!

Spring Creek quail egg sales have nearly doubled since 2016, and their popularity continues to grow.

Foodies love them for their taste, health-conscious consumers seek them for their nutritional benefits, and many ethnic consumers are excited to find this familiar ingredient at their local store.

Spring Creek eggs come fresh from our small, family-owned farm in Saint Anns, Ontario to hundreds of local supermarkets across Canada and the United States.

Our eggs exceed CFIA standards, and our farm is audited yearly for compliance with the SFCR.

Why choose Spring Creek?

Consistent quality.

Each egg is inspected before going into a unique package that keeps them safe on the way from our farm to your customer's table. Spring Creek quail eggs are guaranteed fresh.

A reliable supply.

Keep your fridges stocked — we ship millions of eggs every week across Canada and the US. Spring Creek has a proven track record of fulfilling orders on time.

Marketing support.

We support stores carrying our products with a robust social media and online marketing plan that introduces people to our eggs and the great stores that stock them.

So much goodness in one tiny egg.

Quail eggs are what some foodies call a "superfood," because they're naturally rich in a range of nutrients. The benefits are almost too many to count! And did we mention they're perfect for clean eating, intermittent fasting, keto, low-carb and paleo diets?

- Kosher pareve

Farm-fresh!

Spring Creek is a family-owned quail farm located in Saint Anns, Ontario. Founded in 2002, our small but mighty farm has grown to become one of the largest producers of quail eggs in North America. Our all-natural eggs are laid by healthy and happy quail at our zero-waste facility, with no antibiotics or hormones.
